

## Transmission Report Selection

We redesigned the Transmission Information screens! Have you ever wanted to see a summary of your recent transmissions to MTCS? Now you can! We provided convenient links to the Error, Error Analysis, and Submission Status reports to view more detailed information. The Error, Error Analysis, and Submission Status reports contain information on when the PHA created and updated the file and when MTCS received and processed it. Convenient links allow you to view reports for a specific date more quickly and easily.

## MTCS Transmission Report

We've improved the MTCS Transmission report layout! Do want to look at another Transmission report and not go back several screens to do it? Now you can select another transmission report and report date and click "Go" to access a new report.
